**Subject:** RE: Well

Charlie, I talked to Ms. Beard. We sampled wells that were just upstream and just downstream of her well. I told her that I would let her know if we find any problems in the area. I also told her if we do any more home well sampling I would include her.

Greg

**Subject:** Well

Greg,

A lady stopped at our office about an hour ago because her electrician told her she should have her well tested. I told her I would contact you as EPA was responding to homes in the immediate impact area. She lives on 11 acres just west of New Oxford on PA Rt 30. Her home is very close to the Creek and does flood from time to time.

Her contact information is:

Verna Beard

4800 York Rd.

New Oxford, PA 17350.

Phone 717-624-4852

I explained to her that your office had charted the area where there was potential for issues. If you felt it was an area where there could be a potential problem, you would respond with one of your contractors and Miller would be charged with the cost.

Please review and respond directly to her or give us your best direction in this matter.

Best Regards,

Charlie
